DEDICATION

We, the students of Northwest High, would like to dedicate our first yearbook to our parents and friends. Due to your generosity, the young people of this community have a beautiful building which provides all the educational advantages we could desire. You have given us the opportunity to excel in our academic studies and in extra curricular activities.

We would like to show our appreciation to the Board of Education for their leadership and countless hours of planning, to the Citizens Committee for their ever ready guidance and help, and to the people of the community for their continued support of our school. Therefore, we dedicate our first yearbook to you.

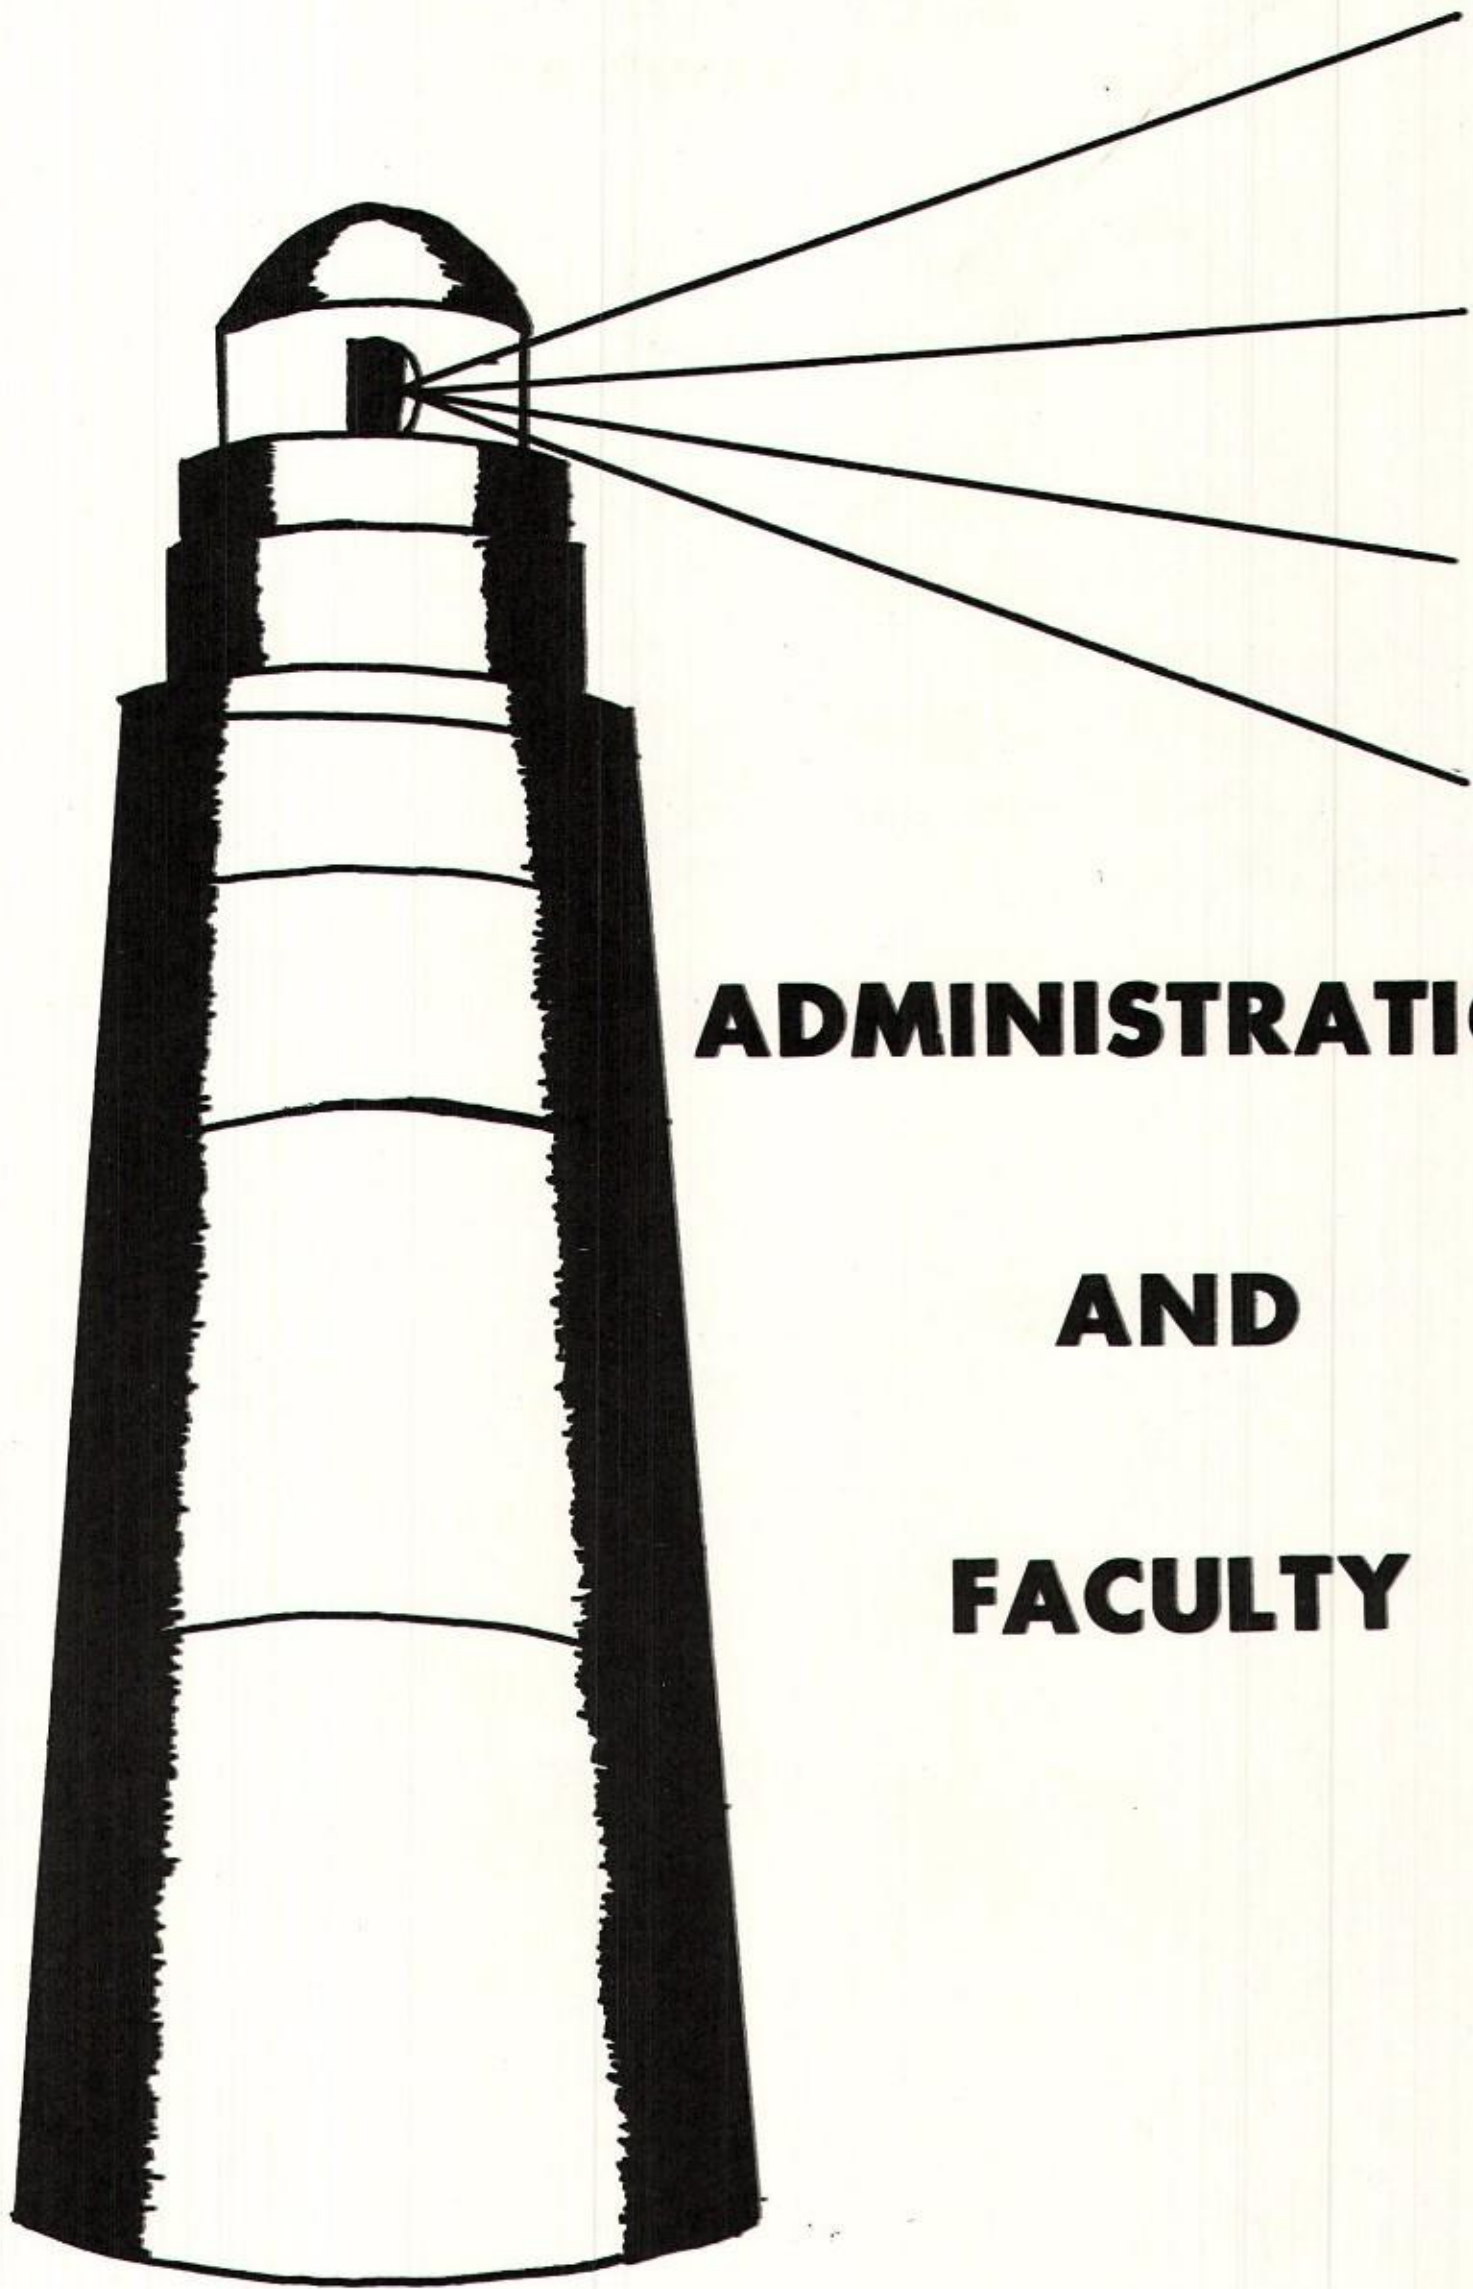

FOREWORD

Realizing that we have a few more years at Northwest, we are eagerly anticipating the many things ahead of us. This year we had the privilege of publishing our first yearbook.

We hope you enjoy it as much as we enjoyed giving it to you. In future years may happy memories come to those who leaf through the pages of this book.

We give to you *Ronald E. Boone* "The Nor'wester."

FACULTY

SUPERINTENDENT

MR. WILLARD KIDDER

Master of Arts
Western Michigan University

As another year comes to a close, it is with a sense of humility that we look back upon our accomplishments. I would like to extend my appreciation to the Board of Education for their untiring efforts in the interest of education, to the parents for their cooperation, to the faculty for their patience, and to you students as you accepted new responsibilities. May it have been a year in which you have grown mentally as well as physically. As you continue in your high school career, may you realize more fully the importance of an education to your future life. May you develop a greater faith in your God, a faith in your self, and a faith in your fellowmen. Each of us should strive to be a better person, for a better life, in a better world.

In surveying the past year it behooves us to examine our accomplishments in the light of our goals. It is to be hoped that you are able to view the past with a sense of personal achievement and pride; pride in your school, pride in student body, and pride in individual proficiency. You are to be congratulated upon your past accomplishments but let us not become complacent but ever lift our sights, looking forward to better things.

It is our fondest hope that each ensuing year will bring about advancements, that there will be an intimate sense of unity established between staff and students thus maintaining our school as one of the finest in the area.

May each of you look back upon this year with pleasant memories and a sense of satisfaction. May it have made a lasting contribution to your intellectual, social, emotional and spiritual development, endowing you with the highest possible sense of values.
